

COURSE SYLLABUS						
Course Code	COMP 017	Course Title	Multimedia		Course Credit	3
Course Description		This course introduces students to the principles, tools, and practices of multimedia production. Students will learn how to create, design, and present multimedia content combining text, images, audio, video, and animation. The course emphasizes practical skills with accessible software and technologies, digital storytelling, collaborative content creation, and ethical media use. By the end, students will develop a professional multimedia portfolio showcasing their creative and technical competencies aligned with current industry and educational trends.				
Pre-Requisites			Co-Requisites	None		
VISION		A Leading Comprehensive Polytechnic University in Asia				
MISSION		Advance an inclusive, equitable, and globally relevant polytechnic education towards national development.				
QUALITY POLICY STATEMENT		The Polytechnic University of the Philippines commits to provide inclusive and equitable quality education and promote lifelong learning opportunities for human advancement and social transformation through re-engineered polytechnic academic programs. Toward this end, we, the members of the PUP Community will vigorously and steadfastly endeavor to continuously improve the standard of University services to the satisfaction of our clients through the adoption and continuous review of our Quality Management System.				

INSTITUTIONAL
LEARNING OUTCOMES
(ILO)

As a polytechnic state university, PUP shall develop its students to possess:

1. **Critical and Creative Thinking.** Graduates use their rational and reflective thinking as well as innovative abilities to life situations in order to push boundaries, realize possibilities, and deepen their interdisciplinary, multidisciplinary, and/or transdisciplinary understanding of the world.
2. **Effective Communication.** Graduates apply the four macro skills in communication (reading, writing, listening, and speaking), through conventional and digital means, and are able to use these skills in solving problems, making decisions, and articulating thoughts when engaging with people in various circumstances.
3. **Strong Service Orientation.** Graduates exemplify strong commitment to service excellence for the people, the clientele, industry, and other sectors.
4. **Adept and Responsible Use or Development of Technology.** Graduates demonstrate optimized and responsible use of state- of-the-art technologies of their profession. They possess digital learning abilities, including technical, numerical, and/or technopreneurial skills.
5. **Passion for Lifelong Learning.** Graduates perform and function in society by taking responsibility in their quest for further improvement through lifelong learning.

6. **Leadership and Organizational Skills.** Graduates assume leadership roles and become leading professionals in their respective disciplines by equipping them with appropriate organizational skills.
7. **Personal and Professional Ethics.** Graduates manifest integrity and adherence to moral and ethical principles in their personal and professional circumstances.
8. **Resilience and Agility.** Graduates demonstrate flexibility and the growth mindset to adapt and thrive in the volatile, uncertain, complex and ambiguous (VUCA) environment.
9. **National and Global Responsiveness.** Graduates exhibit a deep sense of nationalism as it complements the need to live as part of the global community where diversity is respected. They promote and fulfill various advocacies for human and social development.

COLLEGE GOALS AND OBJECTIVES	The Polytechnic University of the Philippines – Taguig Campus aims to achieve the following goals:
	1. Offer curricula which are relevant and responsive to the changing needs of the industry and society; 2. Provide trainings to students that will enable them to become potent instruments to socio-economic development. 3. Prepare students to become productive, creative, innovative, and dynamic in their chosen fields of specialization. 4. Provide state-of-the-arts facilities of learning to optimize student development; 5. Inculcate appropriate values that are necessary to build a humane, disciplined, nationalist, and independent society; 6. Tap potentials of students, faculty, administrative staff and other stakeholders in formulating policies for institutional development; 7. Involve all stakeholders in enhancing programs for student’s faculty and employees’ development; 8. Partner with industry and other research institutions strengthening research capabilities of faculty, employees and students; 9. Facilitate presentation of research outputs in international fora, and their publication in recognized journals; 10.Undertake outreach and research-based extension programs by tapping the expertise and other resources of all stakeholders and, 11.Produce technologies for commercialization of livelihood improvement.

PROGRAM LEARNING OUTCOMES (PLO)	Based on CMO	Alignment to ILOs								
		1	2	3	4	5	6	7	8	9
	Apply knowledge of computing, science, and mathematics appropriate to the discipline.									
	Analyze complex problems, and identify and define the computing requirements appropriate to its solution									
	Identify and analyze user needs and take them into account in the selection, creation, evaluation and administration of computer-based systems.									
	Design, implement, and evaluate computer-based systems, processes, components, or programs to meet desired needs and requirements under various constraints.									

	Integrate IT-based solutions into the user environment effectively.									
	Assist in the creation of an effective IT project plan.									
	Apply knowledge through the use of current techniques, skills, tools and practices necessary for the IT profession									
	Understand best practices and standards and their applications.									
	Function effectively as a member or leader of a development team recognizing the different roles within a team to accomplish a common goal.									
	Communicate effectively with the computing community and with society at large about complex computing activities through logical writing, presentations, and clear instructions.									
	Analyze the local and global impact of computing information technology on individuals, organizations, and society.									
	Understand professional, ethical, legal, security and social issues and responsibilities in the utilization of information technology.									
	Recognize the need for and engage in planning self-learning and improving performance as a foundation for continuing professional development									

COURSE LEARNING OUTCOMES (CLO)	Apply the core principles of multimedia design—visual, audio, and video—to create clear, engaging digital content using accessible tools.	Alignment to PLOs							
		1	2	3	4	5	6	7	8
	Demonstrate effective digital storytelling by planning, designing, and presenting multimedia narratives tailored to specific audiences.								
	Produce and edit image, audio, and video content with free or widely available software								

	and mobile applications.												
	Collaborate in groups to plan, develop, and deliver multimedia projects using cloud-based platforms and teamwork skills.												
	Create and publish online content, such as simple web pages, blogs, and social media materials, that effectively communicate ideas.												
	Integrate inclusive and accessible design features, including subtitles, alt text, and clear layouts, into multimedia outputs.												
	Practice ethical use of media through proper sourcing, citation, and application of copyright and fair use principles.												
	Critically evaluate current multimedia trends and adapt content creation to new technologies, platforms, and community contexts.												

OUTCOMES-BASED TEACHING AND LEARNING PLAN (OBTL PLAN)

Week	Desired Learning Outcomes (DLOs)	Learning Content/ Topics	Instructional Delivery Design		Assessment		Alignment to CLOs			
			Face-to-Face	Flexible Teaching and Learning Activities (FLTAs)			1	2	3	4
1	- Equip students on the pivotal ideas embedded in the vision, mission, and 10 Pillars of PUP - Gain an overview of the course subject and requirements	- Orientation about PUP Vision, Mission, and 10 Pillars - Overview about the Subject Course and Course Requirements	Present the VMGO, policies, and guidelines on the conduct of Face-to-Face; and of the requirements of the course.		Formative Assessment (Sharing of Learning)		X			
2	Introduction to Multimedia & Trends	Understanding multimedia; overview of affordable tools (Canva, GIMP, Google Workspace).	Discuss the role of multimedia in society and Filipino digital landscape.	Discussion	Quiz					

3	- Digital Storytelling Basics - Graphic Design Principles	Fundamentals of storytelling for digital media; design concepts & simple graphics with Canva or GIMP.	Demo basic design and storytelling exercises.	Discussion	Short hands-on activity					
4	Photo Editing & Manipulation	How to edit images using GIMP or Pixlr; practical editing tips.	Guided editing practice.	Discussion	Image editing exercise submission					
5	Video Production Basics	Shooting/Editing videos using smartphones and CapCut/InShot.	Class video project, practical demo.	Discussion	Group video presentation.					
6	Audio Recording and Editing	Voice recording, editing with Audacity.	Demo podcast/audio creation.	Discussion	Audio clip submission.					
7	Effective Presentation Design	Making quality slides and visual presentations with Google Slides/PowerPoint.	Student-led presentations.	Discussion	Slide deck submission.					

8	Website & Online Publishing Basics.	Simple website/blog creation with Google Sites/Blogger	Web page building workshop.	Discussion	Personal webpage/blog submission.					
9	MIDTERM WRITTEN EXAMINATION									
10	- Animation Fundamentals - Collaborative Multimedia Creation.	- Create basic animations using Scratch/Canva - Group project using Google Docs/Drive	Animation Basics Lecture and Collaboration Lecture.	Discussion	Collaborative Animation Project.					
11	Social Media Content Skills	Creating posts for Facebook/Instagram/TikTok	Content creation challenge.	Discussion	Social media post samples.					
12	Mobile-first Content Creation	Using mobile apps for multimedia work	App-based workshop.	Discussion	Mobile-created project.					
13	Podcasting and Audio Narratives	Planning, recording, and sharing podcasts	Podcasting lab/group work.	Discussion	Podcast audio file.					
14	Interactive & Gamified Media	Tools for interactivity (Kahoot, Quizizz, Edmodo)	Interactive quiz/game session.	Discussion	Game/quiz design.					
15	Accessibility in Multimedia	Subtitles, alt text, readable layouts	Demo inclusive content.	Discussion	Accessible design submission.					
16	Ethical Use of Media and	Sourcing, copyright, and fair	Workshop on ethical and legal media use.	Discussion	Case study reflection.					

	Copyright	use practices								
17	• Current Trends in Multimedia	• Brief intro to latest trends (Mobile, AR, Community storytelling)	Trends discussion & local relevance.	Discussion	Mini research report.					
18	FINAL WRITTEN EXAMINATION									

		Resources and Applying Strategies in Teaching Prose <i>Competency 4:</i> Recognizing Assessment in Teaching Prose	achievement which are consistent with the selected competencies ● Learning Plan Making according to the English curricula that develops higher order thinking skills of learners through the use of prose and dramatic texts		● Quizzes					
18	FINAL EXAMINATION
