

COURSE SYLLABUS						
Course Code	COMP 025	Course Title	Project Management		Course Credit	3
Course Description		Project Management Course discusses the project management basics in Information Technology (IT). It explores the Project Management Knowledge Areas of Project Management Body of Knowledge (PMBOK). It describes the concepts and details on project integration management, scope management, time management, cost management, quality management, human resource management, communications management, risk management, and procurement management. It gives understanding on the emerging business and technical environment that are shaping project development. It discusses the working knowledge of the project management processes including project initiation, planning, executing, controlling and closing.				
Pre-Requisites			Co-Requisites	None		
VISION		A Leading Comprehensive Polytechnic University in Asia				
MISSION		Advance an inclusive, equitable, and globally relevant polytechnic education towards national development.				
QUALITY POLICY STATEMENT		The Polytechnic University of the Philippines commits to provide inclusive and equitable quality education and promote lifelong learning opportunities for human advancement and social transformation through re-engineered polytechnic academic programs. Toward this end, we, the members of the PUP Community will vigorously and steadfastly endeavor to continuously improve the standard of University services to the satisfaction of our clients through the adoption and continuous review of our Quality Management System.				

**INSTITUTIONAL
LEARNING OUTCOMES
(ILO)**

- As a polytechnic state university, PUP shall develop its students to possess:
1. **Creative and Critical Thinking.** Graduates use their imagination as well as a rational thinking ability to life situations in order to push boundaries, realize possibilities, and deepen their interdisciplinary and general understanding of the world.
 2. **Adeptness in the Responsible Use of Technology.** Graduates demonstrate optimized use of digital learning abilities, including technical and numerical skills.
 3. **Community Engagement.** Graduates take an active role in the promotion and fulfillment of various advocacies (educational, social and environmental) for the advancement of community welfare.
 4. **High Level of Leadership and Organizational Skills.** Graduates are developed to become the best professionals in their respective disciplines by manifesting the appropriate skills and leadership qualities.
 5. **Strong Service Orientation.** Graduates exemplify the potentialities of an efficient, well-rounded and responsible professional deeply committed to service excellence.
 6. **Effective Communication.** Graduates are proficient in the four macro skills in communication (reading, writing, listening, and speaking) and are able to use these skills in solving problems. Making decisions, and articulating thoughts when engaging with people in various circumstances.
 7. **Sense of Nationalism and Global Responsiveness.** Graduates’ deep sense of national compliments the need to live in a global village where one’s culture and other people's culture are respected.
 8. **Sense of Personal and Professional Ethics.** Graduates show desirable attitudes and behavior either in their personal and professional circumstances.
 9. **Passion to Life-Long Learning.** Graduates are enabled to perform and function in the society by taking responsibility in their quest to know more about the world through lifelong learning.

CLASSROOM POLICY	
FACE-TO-FACE DELIVERY	FLEXIBLE TEACHING AND LEARNING ACTIVITIES (FLTAs)
Please refer to the FLTA policies, except for the stipulation on Attendance. Attendance will be checked during face-to-face sessions.	Aside from what is prescribed in the student handbook, the following are the professor’s additional house rules: : 1. Assignments and research projects/report works will be given throughout the semester. Such requirements shall be due as announced in class. Late submission shall be penalized with grade deductions (5% per day) or shall no longer be accepted, depending on the subject facilitator’s discretion. Assignments and exercises are designed to assist you in understanding the materials presented in class, and to prepare you for the exams. 2. Students are required to attend classes regularly, including possible make-up classes. The student will be held liable for all topics covered and assignments made during his/her absence. The university guidelines on attendance and tardiness will be implemented. Every meeting, an attendance sheet will be passed around. Be sure to sign it. 3. Academic honesty should be practiced at all times. Any evidence of copying or cheating on any course work may result in a failing grade for all parties involved. 4. Students are advised to keep graded work until the semester has ended. 5. Contents of the syllabus are subject to modification with notification. 6. Cell phone, radio or other listening devices are not allowed to be used inside lecture and laboratory rooms to prevent any distractive interruption of the class activity. 7. No food, drinks, cigarettes, nor children are allowed inside the lecture and laboratory rooms. 8. Only officially enrolled students are allowed inside the lecture or laboratory room. 9. Withdrawal and dropping of the subject should be done in accordance with existing university policies and guidelines.
