

COURSE SYLLABUS					
Course Code	ELEC IT-E3	Course Title	IT Elective 3 – IT Audit		Course Credit 3
Course Description		This course equips students with foundational knowledge and practical skills to perform IT audits aligned with ISO/IEC 27001, focusing on risk assessment, control evaluation, and professional reporting.			
Pre-Requisites			Co-Requisites	None	
VISION		A Leading Comprehensive Polytechnic University in Asia			
MISSION		Advance an inclusive, equitable, and globally relevant polytechnic education towards national development.			
QUALITY POLICY STATEMENT		The Polytechnic University of the Philippines commits to provide inclusive and equitable quality education and promote lifelong learning opportunities for human advancement and social transformation through re-engineered polytechnic academic programs. Toward this end, we, the members of the PUP Community will vigorously and steadfastly endeavor to continuously improve the standard of University services to the satisfaction of our clients through the adoption and continuous review of our Quality Management System.			
INSTITUTIONAL LEARNING OUTCOMES (ILO)		As a polytechnic state university, PUP shall develop its students to possess: 1. Critical and Creative Thinking. Graduates use their rational and reflective thinking as well as innovative abilities to life situations in order to push boundaries, realize possibilities, and deepen their interdisciplinary, multidisciplinary, and/or transdisciplinary understanding of the world. 2. Effective Communication. Graduates apply the four macro skills in communication (reading, writing, listening, and speaking), through conventional and digital means, and are able to use these skills in solving problems, making decisions, and articulating thoughts when engaging with people in various circumstances. 3. Strong Service Orientation. Graduates exemplify strong commitment to service excellence for the people, the clientele, industry, and other sectors. 4. Adept and Responsible Use or Development of Technology. Graduates demonstrate optimized and responsible use of state- of-the-art technologies of their profession. They possess digital learning abilities, including technical, numerical, and/or technopreneurial skills. 5. Passion for Lifelong Learning. Graduates perform and function in society by taking responsibility in their quest for further improvement through lifelong learning.

THE COUNTRY'S 1st POLYTECHNICU

	Conduct risk assessments and determine appropriate audit approaches using ISO/IEC 27005 methodologies.		X	X					
	Develop and implement audit programs, including audit plans, objectives, and criteria, in compliance with ISO/IEC 27001.			X	X				
	Analyze and test internal controls, document nonconformities, and recommend corrective and preventive actions.				X	X			
	Demonstrate ethical and professional behavior consistent with ISACA's Code of Ethics and auditing standards.						X	X	
	Communicate audit results effectively through reports, presentations, and consultations with stakeholders.						X		X
	Utilize modern IT audit tools and emerging technologies for automated and continuous auditing.					X			X

OUTCOMES-BASED TEACHING AND LEARNING PLAN (OBTL PLAN)

We e k	Desired Learning Outcomes (DLOs)	Learning Content/ Topics	Instructional Delivery Design		Assessment		Alignmen t to CLOs			
			Face-to-Face	Flexible Teaching and Learning Activities (FLTAs)			1	2	3	4
					Face-to-Face	FLTAs				
1	- Equip students on the pivotal ideas embedded in the vision, mission, and 10 Pillars of PUP - Gain an overview of the course subject and requirements	●Orientation about PUP Vision, Mission, and 10 Pillars ●Overview about the Subject Course and Course Requirements	Present the VMGO, policies, and guidelines on the conduct of Face-to-Face; and of the requirements of the course.		Formative Assessment (Sharing of Learning)		X			

2	- Explain the purpose of IT Audit and its importance in organizational governance. - Describe ISO 27000 family and key ISMS principles.	- Course orientation and overview of ISO/IEC 27001 - Role of IT audit in ISMS and governance - ISO 27000–27005 relationships - ISMS structure and key terms	Lecture and class discussion on audit vs assurance roles; Lecture on ISO 27001 clauses and context.	Online reading of ISO 27001 overview and ISMS video discussion	Formative quiz on audit concepts and recitation.	Reflection post on IT audit importance and online quiz on ISMS definitions.	X	X		
3	Identify leadership and planning requirements in ISO 27001.	Clauses 5–6: Leadership, commitment, security policy, risk assessment, and treatment plan.	Case study on policy creation; class workshop on risk management process.	Online worksheet for risk assessment and SoA drafting.	Policy evaluation and discussion.	Submission of risk matrix and SoA draft.	X	X	X	
4	Demonstrate awareness and documentation requirements for ISMS support.	Clause 7: Awareness, communication, competence, and documented information.	Workshop on awareness and documentation design.	Create digital awareness content or posters.	Presentation of awareness plan.	Peer review of awareness content.			X	X
5	Explain operational control and process management.	Clause 8: Operation, process planning, and change management.	Lecture and group mapping of operational controls.	Use online templates to map security processes.	Written exercise on control implementation.	Submission of operational control mapping.				X
6	Analyze monitoring and	Clause 9: Monitoring, measurement,	Lecture and workshop on KPI	Draft a KPI plan online.	Quiz on performance	Submit KPI plan.X				X

THE COUNTRY'S 1st POLYTECHNICU

8	• Interpret Annex A organizational and HR controls. • Interpret Annex A technical and physical controls.	• Annex A: Organizational, human resource, and administrative controls. • Annex A: Access, cryptography, physical and operations security.	• Lecture and case discussion. • Lab demonstration of access and encryption controls.	• Research applications of selected controls. • Study online documentation on encryption and logging.	Short quiz.	• Write-up on two organizational controls. • Submit short report on control implementation.				
9	MIDTERM WRITTEN EXAMINATION									
10	• Understand audit principles, auditor roles, and ethics.	• ISO 19011 overview; auditor competence; code of conduct.	Lecture on audit principles and ethics.	Online case study analysis.	Role-play on ethical dilemmas.	Discussion post.				
11	• Prepare a detailed IT audit plan.	• Audit scope, objectives, criteria, and resources.	Workshop on creating audit plans.	Online drafting of audit checklists.	Presentation of draft plans.	Submission of final audit plan.				
12	• Conduct evidence-based audit fieldwork.	• Evidence collection, interviews, sampling, and documentation.	Mock interview and evidence logging.	Compilation of audit notes.	Practical observation.	Submit evidence log.			X	
13	• Prepare and finalize audit reports and findings.	• Nonconformities, classification, audit reporting, and follow-up.	Lecture and report writing session.	Peer review of report drafts.	Audit report submission.	Reflection on findings.				
14	• Execute a full audit cycle – Part I.	• Planning, fieldwork, and analysis (simulation).	Conduct audit simulation.	Team coordination via online tools.	Observation checklist evaluation.	Submit interim report.

CLASSROOM POLICY	
FACE-TO-FACE DELIVERY	FLEXIBLE TEACHING AND LEARNING ACTIVITIES (FLTAs)
Please refer to the FLTA policies, except for the stipulation on Attendance. Attendance will be checked during face-to-face sessions.	Students’ Responsibilities Students are expected to: a. Take time to read and watch the provided class learning materials. b. Fulfill class requirements such as posting on discussion boards and submitting group presentations. c. Check the status of their submissions and inform the instructor if they are having problems submitting the requirements. The instructor may not be able to remind all students about their missing/unsubmitted requirements. If at the end of the course students still have missing requirements, the instructor will compute for the final grade without those submissions (They will be graded with 0) and submit the grade. If the final grade is “INC” grade, the student must contact the instructor to decide in completing the course, ASAP. d. Confer with classmates or the instructor about the discussions during the synchronous sessions that they missed if unable to attend the live sessions. Recordings will be provided but may not be available immediately. e. Inform the instructor of concerns that may prevent them from fully participating in the class. This includes withdrawal from the course, long term illnesses, personal matters, and others. Teachers will not be able to help you if you don’t tell them of these concerns. Attendance. We recognize that students have varying access levels to technology and connectivity, which is why for the most part, the course is conducted asynchronously. During synchronous sessions, there will be no checking of attendance. However, everyone is encouraged to participate in these sessions. A recording and/or transcript of synchronous classes will be made available for students who are unable to attend a synchronous session. Late Submissions. Deadlines will be set for the submission of course requirements. This allows the instructor sufficient time to review them. It also helps students pace their work. If you experience problems submitting your work on time, please contact the instructor ahead of time. All requirements must be completed to pass the course. Late submissions will not merit deductions but may not receive timely feedback. Cheating and Plagiarism.

Any work submitted by a student in this course for academic credit will be the student's own work. Any form of academic dishonesty will be fully dealt with according to the stipulations of the PUP Student Handbook.

Participation.
Participation during discussions is greatly encouraged, and students should feel free to ask questions when an idea or lesson is unclear or confusing, especially during synchronous sessions.

Announcements.
Class announcements will be communicated through the class president. Other communication shall always be coursed through university-issued (i.e., official) email accounts. Students must use their PUP student accounts.

Intellectual Property and Copyright.
Original materials created for this online class is covered by university policies on intellectual property. Some (third-party) instructional materials (e.g., YouTube videos) might be under the public domain or are open access, while others (e.g., some assigned readings) might be subject to fair use. All third-party instructional materials will be attributed to their original creators. Electronic copies of the assigned readings are for your private consumption only. Access to the course materials for this class for PUP students will be restricted to only those students registered in this course and will be available for only a limited period. Please do not share these materials with anyone elsewhere. The same applies to the recordings of the synchronous sessions.
