| Course Description       |          | Programming 3 (Structured Programming) focuses on developing students’ problem-solving skills through the use of structured programming principles and techniques. The course emphasizes the design, development, testing, and debugging of programs using control structures, functions, arrays, and file handling. Students will learn how to write efficient, modular, and well-documented code that adheres to best practices in software development. By the end of the course, learners will be able to design and implement complete programs that demonstrate logical structure, clarity, and maintainability. |                                        |               |               |   |
| Pre-Requisites           |          | COMP 003                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                        | Co-Requisites | None          |   |
| VISION                   |          | A Leading Comprehensive Polytechnic University in Asia                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                        |               |               |   |
| MISSION                  |          | Advance an inclusive, equitable, and globally relevant polytechnic education towards national development.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                        |               |               |   |
| QUALITY POLICY STATEMENT |          | The Polytechnic University of the Philippines commits to provide inclusive and equitable quality education and promote lifelong learning opportunities for human advancement and social transformation through re-engineered polytechnic academic programs. Toward this end, we, the members of the PUP Community will vigorously and steadfastly endeavor to continuously improve the standard of University services to the satisfaction of our clients through the adoption and continuous review of our Quality Management System.                                                                                 |                                        |               |               |   |

**INSTITUTIONAL LEARNING  
OUTCOMES  
(ILO)**

- As a polytechnic state university, PUP shall develop its students to possess:
1. **Critical and Creative Thinking.** Graduates use their rational and reflective thinking as well as innovative abilities to life situations in order to push boundaries, realize possibilities, and deepen their interdisciplinary, multidisciplinary, and/or transdisciplinary understanding of the world.
  2. **Effective Communication.** Graduates apply the four macro skills in communication (reading, writing, listening, and speaking), through conventional and digital means, and are able to use these skills in solving problems, making decisions, and articulating thoughts when engaging with people in various circumstances.
  3. **Strong Service Orientation.** Graduates exemplify strong commitment to service excellence for the people, the clientele, industry, and other sectors.
  4. **Adept and Responsible Use or Development of Technology.** Graduates demonstrate optimized and responsible use of state- of-the-art technologies of their profession. They possess digital learning abilities, including technical, numerical, and/or technopreneurial skills.
  5. **Passion for Lifelong Learning.** Graduates perform and function in society by taking responsibility in their quest for further improvement through lifelong learning.

|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                              | <p>6. <b>Leadership and Organizational Skills.</b> Graduates assume leadership roles and become leading professionals in their respective disciplines by equipping them with appropriate organizational skills.</p> <p>7. <b>Personal and Professional Ethics.</b> Graduates manifest integrity and adherence to moral and ethical principles in their personal and professional circumstances.</p> <p>8. <b>Resilience and Agility.</b> Graduates demonstrate flexibility and the growth mindset to adapt and thrive in the volatile, uncertain, complex and ambiguous (VUCA) environment.</p> <p>9. <b>National and Global Responsiveness.</b> Graduates exhibit a deep sense of nationalism as it complements the need to live as part of the global community where diversity is respected. They promote and fulfill various advocacies for human and social development.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| COLLEGE GOALS AND OBJECTIVES | <p>The Polytechnic University of the Philippines – Taguig Campus aims to achieve the following goals:</p> <ol style="list-style-type: none"><li>1. Offer curricula which are relevant and responsive to the changing needs of the industry and society;</li><li>2. Provide trainings to students that will enable them to become potent instruments to socio-economic development.</li><li>3. Prepare students to become productive, creative, innovative, and dynamic in their chosen fields of specialization.</li><li>4. Provide state-of-the-arts facilities of learning to optimize student development;</li><li>5. Inculcate appropriate values that are necessary to build a humane, disciplined, nationalist, and independent society;</li><li>6. Tap potentials of students, faculty, administrative staff and other stakeholders in formulating policies for institutional development;</li><li>7. Involve all stakeholders in enhancing programs for student’s faculty and employees’ development;</li><li>8. Partner with industry and other research institutions strengthening research capabilities of faculty, employees and students;</li><li>9. Facilitate presentation of research outputs in international fora, and their publication in recognized journals;</li><li>10.Undertake outreach and research-based extension programs by tapping the expertise and other resources of all stakeholders and,</li><li>11.Produce technologies for commercialization of livelihood improvement.</li></ol> |

| CLASSROOM POLICY                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| FACE-TO-FACE DELIVERY                                                                                                                 | FLEXIBLE TEACHING AND LEARNING ACTIVITIES (FLTAs)                                                                                                                                                                                                                                                                                                                                |
| Please refer to the FLTA policies, except for the stipulation on Attendance. Attendance will be checked during face-to-face sessions. | <b>Students’ Responsibilities</b><br>Students are expected to:<br>a. Take time to read and watch the provided class learning materials.<br>b. Fulfill class requirements such as posting on discussion boards and submitting group presentations.<br>c. Check the status of their submissions and inform the instructor if they are having problems submitting the requirements. |

The instructor may not be able to remind all students about their missing/unsubmitted requirements. If at the end of the course students still have missing requirements, the instructor will compute for the final grade without those submissions (They will be graded with 0) and submit the grade. If the final grade is "INC" grade, the student must contact the instructor to decide in completing the course, ASAP.

d. Confer with classmates or the instructor about the discussions during the synchronous sessions that they missed if unable to attend the live sessions. Recordings will be provided but may not be available immediately.

e. Inform the instructor of concerns that may prevent them from fully participating in the class. This includes withdrawal from the course, long term illnesses, personal matters, and others. Teachers will not be able to help you if you don't tell them of these concerns.

**Attendance.**  
We recognize that students have varying access levels to technology and connectivity, which is why for the most part, the course is conducted asynchronously. During synchronous sessions, there will be no checking of attendance. However, everyone is encouraged to participate in these sessions. A recording and/or transcript of synchronous classes will be made available for students who are unable to attend a synchronous session.

**Late Submissions.**  
Deadlines will be set for the submission of course requirements. This allows the instructor sufficient time to review them. It also helps students pace their work. If you experience problems submitting your work on time, please contact the instructor ahead of time. All requirements must be completed to pass the course. Late submissions will not merit deductions but may not receive timely feedback.

**Cheating and Plagiarism.**  
Any work submitted by a student in this course for academic credit will be the student's own work. Any form of academic dishonesty will be fully dealt with according to the stipulations of the PUP Student Handbook.

**Participation.**  
Participation during discussions is greatly encouraged, and students should feel free to ask questions when an idea or lesson is unclear or confusing, especially during synchronous sessions.

**Announcements.**  
Class announcements will be communicated through the class president. Other communication shall always be coursed through university-issued (i.e., official) email accounts. Students must use their PUP student accounts.

**Intellectual Property and Copyright.**  
Original materials created for this online class is covered by university policies on intellectual property. Some (third-party) instructional materials (e.g., YouTube videos) might be under the public domain or are open access, while others (e.g., some assigned readings) might be subject to fair use. All third-party instructional materials will
