

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
Office of the Vice President for Campuses
TAGUIG CAMPUS
BACHELOR OF SCIENCE IN ELECTRONICS ENGINEERING

OUTCOMES-BASED COURSE SYLLABUS

COURSE INFORMATION						
Course Code	ITEC 104	Course Title	Basic Electronics 1		Course Credit	2
Course Description		This course introduces the essential principles of electronics, including components, devices, circuits, and systems. It aims to provide students with a solid understanding of electronic circuits, analysis techniques, and hands-on experience in the design, testing, and troubleshooting of basic electronic systems. The course is designed to prepare students for more advanced study in electronics and communication systems.				
Pre-Requisites		None		Co-Requisites	None	
VISION			A Leading Comprehensive Polytechnic University in Asia			
MISSION			Advance an inclusive, equitable, and globally relevant polytechnic education towards national development.			
QUALITY POLICY STATEMENT			The Polytechnic University of the Philippines commits to provide inclusive and equitable quality education and promote lifelong learning opportunities for human advancement and social transformation through re-engineered polytechnic academic programs. Toward this end, we, the members of the PUP Community, will vigorously and steadfastly endeavor to continuously improve the standard of university services to the satisfaction of our clients through the adoption and continuous review of our Quality Management System.

INSTITUTIONAL LEARNING OUTCOMES
(ILO)

1. **Critical and Creative Thinking.** Graduates use their rational and reflective thinking as well as innovative abilities to life situations in order to push boundaries, realize possibilities, and deepen their interdisciplinary, multidisciplinary, and/or transdisciplinary understanding of the world.
2. **Effective Communication.** Graduates apply the four macro skills in communication (reading, writing, listening, and speaking), through conventional and digital means, and are able to use these skills in solving problems, making decisions, and articulating thoughts when engaging with people in various circumstances.
3. **Strong Service Orientation.** Graduates exemplify a strong commitment to service excellence for the people, the clientele, the industry, and other sectors.
4. **Adept and Responsible Use or Development of Technology.** Graduates demonstrate optimized and responsible use of state-of-the-art technologies in their profession. They possess digital learning abilities, including technical, numerical, and/or technopreneurial skills.
5. **Passion for Lifelong Learning.** Graduates perform and function in society by taking responsibility in their quest for further improvement through lifelong learning.
6. **Leadership and Organizational Skills.** Graduates assume leadership roles and become leading professionals in their respective disciplines by equipping them with appropriate organizational skills.
7. **Personal and Professional Ethics.** Graduates manifest integrity and adherence to moral and ethical principles in their personal and professional circumstances.
8. **Resilience and Agility.** Graduates demonstrate flexibility and the growth mindset to adapt and thrive in the volatile, uncertain, complex, and ambiguous (VUCA) environment.

Office of the Vice President for Campuses
TAGUIG CAMPUS
BACHELOR OF SCIENCE IN ELECTRONICS ENGINEERING

9. **National and Global Responsiveness.** Graduates exhibit a deep sense of nationalism as it complements the need to live as part of a global community where diversity is respected. They promote and fulfill various advocacies for human and social development.

COLLEGE GOALS

The Polytechnic University of the Philippines – Taguig Campus aims to achieve the following goals:

- Offer curricula which are relevant and responsive to the changing needs of the industry and society;
- Provide trainings to students that will enable them to become potent instruments to socio-economic development;
- Prepare students to become productive, creative, innovative, and dynamic in their chosen fields of specialization;
- Provide state-of-the-art facilities for learning to optimize student development;
- Inculcate appropriate values that are necessary to build a humane, disciplined, nationalist, and independent society;
- Tap potentials of students, faculty, administrative staff, and other stakeholders in formulating policies for institutional development;
- Involve all stakeholders in enhancing programs for student, faculty and employee development;

	• Develop a culture of collaborative research among students, faculty, and employees; • Partner with industry and other research institutions in strengthening the research capabilities of faculty, employees, and students; • Facilitate presentation of research outputs in international fora and their publication in recognized journals; • Undertake outreach and research-based extension programs by tapping the expertise and other resources of all stakeholders; and, • Produce technologies for the commercialization of livelihood improvement.										
	1.										
PROGRAM LEARNING OUTCOMES (PLO)	By the time of graduation, the students of the BSECE program shall have the ability to:	Alignment to ILOs									
		1	2	3	4	5	6	7	8	9	
	a) Apply knowledge of mathematics and science to solve complex engineering problems.										
	b) Design and conduct experiments, as well as analyze and interpret data.

TAGUIG CAMPUS
BACHELOR OF SCIENCE IN ELECTRONICS ENGINEERING

General Classroom Guidelines

1. Students must read all assigned texts plus additional related texts before contact sessions.
2. Students are expected to always demonstrate academic integrity.
3. Requirements must be submitted on time. Late submission is not allowed.
4. Unless otherwise stated, all requirements should be printed/submitted on 8.5" x 11" papers with 1" margins all around, double-spaced throughout using Times New Roman font size 12.
5. Students who have any form of disability must inform the course instructor immediately so that alternative arrangements may be immediately considered.

Guidelines for face-to-face delivery:

1. Students must read all assigned texts plus additional related texts before contact sessions.
2. Strictly observe the minimum health protocols set by the university.
3. Check your schedule on the class Facebook group chat before going to school.

Synchronous Sessions

1. Check your device ahead of your scheduled synchronous meeting (camera, microphone, keyboard, speakers, etc.)
2. Attend the synchronous class on time.
3. Be ready to turn on your microphone and camera anytime.
4. Choose a comfortable space to attend the online class.
5. Click the 'raise hand' button and wait to be acknowledged by the teacher(s) before unmuting your microphone.
6. Do not abuse the chat box.
7. Read the assigned materials before attending the class.
8. Be mindful of your classmates and teacher's time. Be alert, constructive, and responsive.

Asynchronous Sessions

1. Study the sections and functions of the assigned learning management system (LMS) ahead of time.
2. Always check the expected submission/turn-in schedule. For some timed activities, late submission may cause deductions to your grades.

CLASS STANDING	70%	Face to Face	Synchronous	Asynchronous

4. Be mindful of your classmates and teacher's time. Be alert, constructive, and responsive.

GAD Policy

1. Gender-fair language in communication and the arts
2. Gender identity
3. Gender roles
4. Gender representation in media, art, and literature
5. (En)gender(ed) (in)equality across disciplines
6. Diversity of learners

	Critical Analysis	Activity 2		Problem Solving
	Critical Analysis	Activity 3		Problem Solving
	Critical Analysis	Activity 4		Problem Solving
	Critical Analysis	Activity 5		Problem Solving
MID-TERM	30%	Exam		

3.

4.

5. For group activities, discuss the best time and platform to discuss the assignment of tasks with your groupmates.
6. Ask for help from your teacher(s) and classmates when necessary. (Follow the rules on sending an effective email to your teacher. A separate discussion shall be allotted for this.)

COURSE REQUIREMENT/S

Attended 80% of the total class meetings (inclusive of synchronous and face to face sessions).

Class Standing will come from the following (70%):

- Laboratory Reports & Performance (25%)
- Assignments/Homework (15%)
- Simulation/Design Project (15%)

Suggested rubrics for assessment:

A. Discourse Analytics Rubrics:

Assessment Type	Criteria	Excellent (4)	Good (3)	Fair (2)	Needs Improvement (1)
Lab Report	Clarity of explanations	Clear, detailed	Mostly clear	Somewhat clear	Unclear, incomplete
	Accuracy of calculations	All calculations correct	Minor errors	Some errors	Significant errors
	Circuit performance (if applicable)	Fully functional	Minor issues	Noticeable issues	Not working
Quiz/Exam	Conceptual Understanding	Excellent	Good	Fair	Poor
	Application of Knowledge	Excellent	Good	Fair	Limited
Homework	Completeness and clarity	Fully complete	Mostly complete	Partially complete	Incomplete

B. Students shall be graded or marked in accordance with the following system based on the Student Handbook:
