

COURSE SYLLABUS					
Cours e Code	ITEC 304	Course Title	Seminar on Issues and Trends in Information Technology		Course Credit 2
Course Description		This course provides students with an in-depth understanding of current issues, emerging technologies, and evolving trends in the field of Information Technology. It aims to prepare students for real-world professional environments through active participation in seminars, discussions, and training sessions focused on recent developments in IT. Student will explore topics relating to modern software development practices. The course also emphasizes seminar organization and presentation skills, where students will plan, conduct, and participate in seminars that simulate professional IT conferences and industry events. Through these activities, students will develop communication, research, and critical thinking skills, as well as gain exposure to industry applications, tools, and technologies relevant to today’s IT landscape. Ultimately, this course serves as both a preparation for professional engagement and a platform for lifelong learning in a rapidly changing technological environment.			
Pre-Requisites			Co-Requisites	None	
VISION		A Leading Comprehensive Polytechnic University in Asia			
MISSION		Advance an inclusive, equitable, and globally relevant polytechnic education towards national development.			
QUALITY POLICY STATEMENT		The Polytechnic University of the Philippines commits to provide inclusive and equitable quality education and promote lifelong learning opportunities for human advancement and social transformation through re-engineered polytechnic academic programs. Toward this end, we, the members of the PUP Community will vigorously and steadfastly endeavor to continuously improve the standard of University services to the satisfaction of our clients through the adoption and continuous review of our Quality Management System.			

**INSTITUTIONAL
LEARNING OUTCOMES
(ILO)**

As a polytechnic state university, PUP shall develop its students to possess:

1. **Critical and Creative Thinking.** Graduates use their rational and reflective thinking as well as innovative abilities to life situations in order to push boundaries, realize possibilities, and deepen their interdisciplinary, multidisciplinary, and/or transdisciplinary understanding of the world.
2. **Effective Communication.** Graduates apply the four macro skills in communication (reading, writing, listening, and speaking), through conventional and digital means, and are able to use these skills in solving problems, making decisions, and articulating thoughts when engaging with people in various circumstances.
3. **Strong Service Orientation.** Graduates exemplify strong commitment to service excellence for the people, the clientele, industry, and other sectors.
4. **Adept and Responsible Use or Development of Technology.** Graduates demonstrate optimized and responsible use of state- of-the-art technologies of their profession. They possess digital learning abilities, including technical, numerical, and/or technopreneurial skills.
5. **Passion for Lifelong Learning.** Graduates perform and function in society by taking responsibility in their quest for further improvement through lifelong learning.

	6. Leadership and Organizational Skills. Graduates assume leadership roles and become leading professionals in their respective disciplines by equipping them with appropriate organizational skills. 7. Personal and Professional Ethics. Graduates manifest integrity and adherence to moral and ethical principles in their personal and professional circumstances. 8. Resilience and Agility. Graduates demonstrate flexibility and the growth mindset to adapt and thrive in the volatile, uncertain, complex and ambiguous (VUCA) environment. 9. National and Global Responsiveness. Graduates exhibit a deep sense of nationalism as it complements the need to live as part of the global community where diversity is respected. They promote and fulfill various advocacies for human and social development.
COLLEGE GOALS AND OBJECTIVES	The Polytechnic University of the Philippines – Taguig Campus aims to achieve the following goals: 1. Offer curricula which are relevant and responsive to the changing needs of the industry and society; 2. Provide trainings to students that will enable them to become potent instruments to socio-economic development. 3. Prepare students to become productive, creative, innovative, and dynamic in their chosen fields of specialization. 4. Provide state-of-the-arts facilities of learning to optimize student development; 5. Inculcate appropriate values that are necessary to build a humane, disciplined, nationalist, and independent society; 6. Tap potentials of students, faculty, administrative staff and other stakeholders in formulating policies for institutional development; 7. Involve all stakeholders in enhancing programs for student’s faculty and employees’ development; 8. Partner with industry and other research institutions strengthening research capabilities of faculty, employees and students; 9. Facilitate presentation of research outputs in international fora, and their publication in recognized journals; 10.Undertake outreach and research-based extension programs by tapping the expertise and other resources of all stakeholders and, 11. Produce technologies for commercialization of livelihood improvement.

PROGRAM LEARNING OUTCOMES (PLO)	Based on CMO	Alignment to ILOs								
		1	2	3	4	5	6	7	8	9
	Apply knowledge of computing, science, and mathematics appropriate to the discipline.									
	Analyze complex problems, and identify and define the computing requirements appropriate to its solution									
	Identify and analyze user needs and take them into account in the selection, creation, evaluation and administration of computer-based systems.									
	Design, implement, and evaluate computer-based systems, processes, components, or programs to meet desired needs and requirements under various constraints.									

	Integrate IT-based solutions into the user environment effectively.												
	Assist in the creation of an effective IT project plan.												
	Apply knowledge through the use of current techniques, skills, tools and practices necessary for the IT profession												
	Understand best practices and standards and their applications.												
	Function effectively as a member or leader of a development team recognizing the different roles within a team to accomplish a common goal.												
	Communicate effectively with the computing community and with society at large about complex computing activities through logical writing, presentations, and clear instructions.												
	Analyze the local and global impact of computing information technology on individuals, organizations, and society.												
	Understand professional, ethical, legal, security and social issues and responsibilities in the utilization of information technology.												
	Recognize the need for and engage in planning self-learning and improving performance as a foundation for continuing professional development												

COURSE LEARNING OUTCOMES (CLO)		Alignment to PLOs							
		1	2	3	4	5	6	7	8
COURSE LEARNING OUTCOMES (CLO)	Identify and analyze current issues, trends, and emerging technologies in the field of Information Technology.								
	Demonstrate understanding of the impact of new IT innovations on business, society, and the global digital economy.								
	Organize and conduct seminars or training sessions related to contemporary IT topics, following professional standards and best practices.								
	Develop and deliver effective presentations that communicate complex IT concepts clearly and confidently to an audience.								
	Collaborate with peers in planning, preparing, and implementing seminar activities, applying teamwork and leadership skills.								
	Apply relevant IT tools and applications used in industry for seminar execution, documentation, and presentation.								
	Critically evaluate different perspectives on IT-related issues and propose potential solutions or improvements.								
	Reflect on personal and professional growth gained through seminar participation and training experiences in preparation for entry into the IT industry.								

OUTCOMES-BASED TEACHING AND LEARNING PLAN (OBTL PLAN)

Week	Desired Learning Outcomes (DLOs)	Learning Content/ Topics	Instructional Delivery Design		Assessment		Alignment to CLOs			
			Face-to-Face	Flexible Teaching and Learning Activities (FLTAs)	Face-to-Face	FLTAs	1	2	3	4
1	- Equip students on the pivotal ideas embedded in the vision, mission, and 10 Pillars of PUP - Gain an overview of the course subject and requirements	- Orientation about PUP Vision, Mission, and 10 Pillars - Overview about the Subject Course and Course Requirements	Present the VMGO, policies, and guidelines on the conduct of Face-to-Face, and of the requirements of the course.		Formative Assessment (Sharing of Learning)		X			
2	- Design and develop professional PowerPoint presentations suitable for IT-related seminars and training sessions. - Apply effective design principles and visual communication	- Unit II – Seminar Preparation - Training for how to make PPT for training - How to speak as a trainer - Seminar topics	- Lecture - Reflective Thinking - Discussion							

	techniques to enhance clarity and engagement in seminar materials. • Demonstrate appropriate communication skills, body language, and confidence when delivering presentations as a trainer. • Collaborate with peers in planning and preparing seminar materials that meet professional and academic standards.								
3		• Unit III – Student as a Trainer • GIT ◦ Setup ◦ Introduction to GIT ◦ Commands ◦ GIT integration to capstone ◦ Merging vs. Rebasing	• Lecture • Reflective Thinking • Discussion • Coding Demonstration		• Training Materials / Guides				
4	• Appreciate the importance of mental health and well-being in the IT profession. • Understand and apply the fundamentals of	• Unit IV – Seminars (Speaker Topics) ◦ Mental Health as IT Practitioner ◦ Software Engineer Quality Assurance	• Powerpoint • Discussion • Coding Demonstration						

	software testing and quality assurance. • Explain the core concepts and applications of Oracle Cloud and AWS Cloud with a focus on security. • Demonstrate effective IT leadership, communication, and teamwork skills. • Apply basic principles of game development using CodeIt. • Reflect on emerging issues and trends in Information Technology through seminar participation and synthesis activities.	(Manual and Automation) ○ Oracle Cloud ○ AWS Cloud and Security ○ IT Leadership ○ Game Coding (CodeIt)

CLASSROOM POLICY	
FACE-TO-FACE DELIVERY	FLEXIBLE TEACHING AND LEARNING ACTIVITIES (FLTAs)
Please refer to the FLTA policies, except for the stipulation on Attendance. Attendance will be checked during face-to-face sessions.	Students’ Responsibilities Students are expected to: a. Take time to read and watch the provided class learning materials. b. Fulfill class requirements such as posting on discussion boards and submitting group presentations. c. Check the status of their submissions and inform the instructor if they are having problems submitting the requirements.

THE COUNTRY'S 1st POLYTECHNICU

The instructor may not be able to remind all students about their missing/unsubmitted requirements. If at the end of the course students still have missing requirements, the instructor will compute for the final grade without those submissions (They will be graded with 0) and submit the grade. If the final grade is "INC" grade, the student must contact the instructor to decide in completing the course, ASAP.

d. Confer with classmates or the instructor about the discussions during the synchronous sessions that they missed if unable to attend the live sessions. Recordings will be provided but may not be available immediately.

e. Inform the instructor of concerns that may prevent them from fully participating in the class. This includes withdrawal from the course, long term illnesses, personal matters, and others. Teachers will not be able to help you if you don't tell them of these concerns.

Attendance.
We recognize that students have varying access levels to technology and connectivity, which is why for the most part, the course is conducted asynchronously. During synchronous sessions, there will be no checking of attendance. However, everyone is encouraged to participate in these sessions. A recording and/or transcript of synchronous classes will be made available for students who are unable to attend a synchronous session.

Late Submissions.
Deadlines will be set for the submission of course requirements. This allows the instructor sufficient time to review them. It also helps students pace their work. If you experience problems submitting your work on time, please contact the instructor ahead of time. All requirements must be completed to pass the course. Late submissions will not merit deductions but may not receive timely feedback.

Cheating and Plagiarism.
Any work submitted by a student in this course for academic credit will be the student's own work. Any form of academic dishonesty will be fully dealt with according to the stipulations of the PUP Student Handbook.

Participation.
Participation during discussions is greatly encouraged, and students should feel free to ask questions when an idea or lesson is unclear or confusing, especially during synchronous sessions.

Announcements.
Class announcements will be communicated through the class president. Other communication shall always be coursed through university-issued (i.e., official) email accounts. Students must use their PUP student accounts.

Intellectual Property and Copyright.
Original materials created for this online class is covered by university policies on intellectual property. Some (third-party) instructional materials (e.g., YouTube videos) might be under the public domain or are open access, while others (e.g., some assigned readings) might be subject to fair use. All third-party instructional materials will be

attributed to their original creators. Electronic copies of the assigned readings are for your private consumption only. Access to the course materials for this class for PUP students will be restricted to only those students registered in this course and will be available for only a
